

Global Reconstruction Program

INVITATION TO BUILDERS AND DEVELOPERS

to build Maharishi Peace Colonies

The dawn of a new fortune for everyone in every country

It has been found that the buildings where people are living and working throughout the world have not been built in conformity with Natural Law. (See details in following pages.)

For that reason a great deal of negativity, ill health, and conflict prevail in families, communities, city life, national life, and on the international level. People have suffered and experienced negativity of many kinds, not knowing that the design of the home itself was the cause of their suffering.

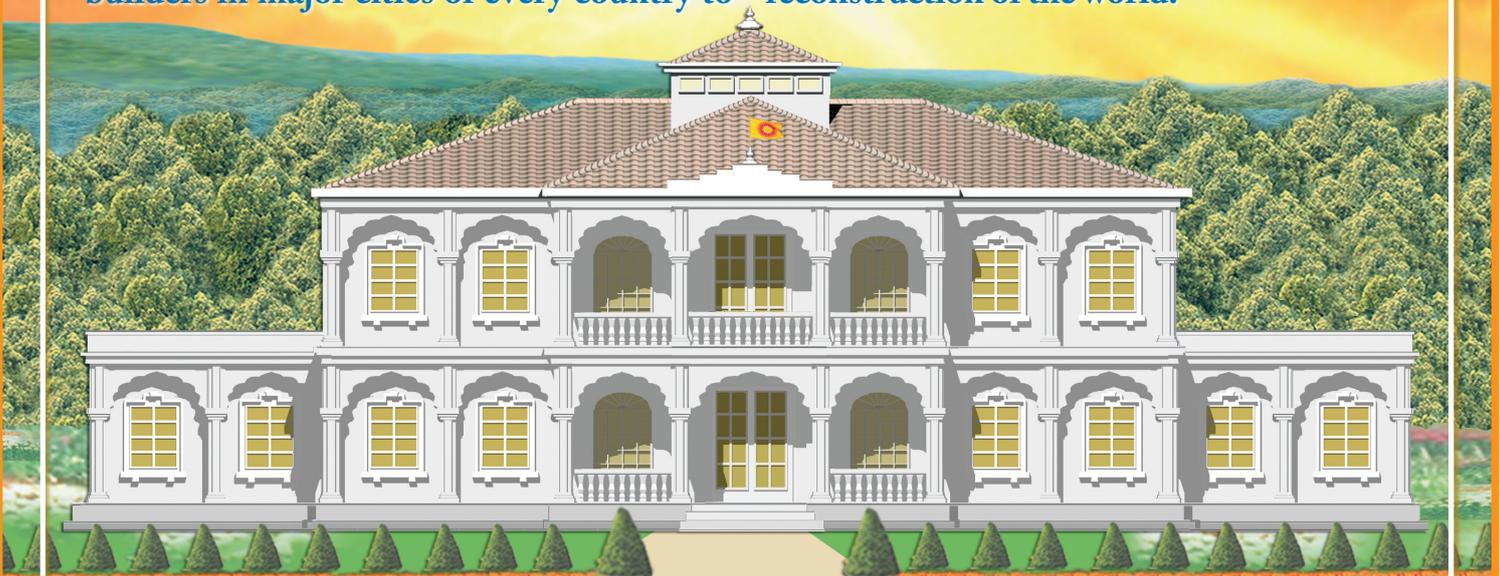

It needed a scientific age to probe into the betterment of every area of life, and from that came the conclusion that unless the people of our world family live in homes built according to *Sthapatya Veda*[®] (*Vastu*[®]) peace will always remain a question mark everywhere.

To correct the wrong that has prevailed for centuries, our program of Global Reconstruction is being initiated in every big city of the world. We are inviting developers and builders in major cities of every country to

materialize these 'Fortune-Promoting and Peace-Creating Buildings' built according to the knowledge of Vastu—Sthapatya Veda—Vedic knowledge of architecture in harmony with Natural Law, starting with the construction of sample ideal Vastu Peace Colonies of a few hundred acres each in the north, south, east, and west of every major city.

Peace Colonies can be built according to this ideal Vastu building system. As people see the elimination of their problems and more creativity blossoming by living in these newly built 'Vastu Homes', the old cities will be rebuilt very quickly and developers and builders will fulfil their role of providing more healthy and more fortunate homes for the population.

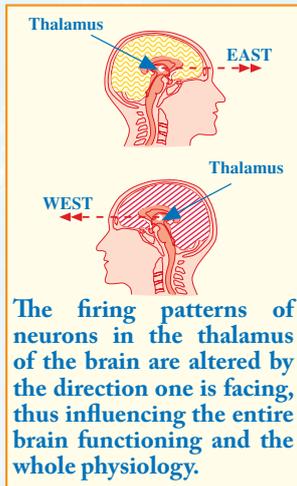

Let us start. Let every developer and builder everywhere step on to this fortunate and blessed global enterprise and fulfil their ambition to do something really good by participating in this global program for reconstruction of the world.

Developers are busy developing in their areas, and builders are busy building in their areas anyway; so why not build in a way that the building does not shadow the fortune of its occupants?

All large-scale builders are advised to involve smaller builders in their localities and inform them of the importance of building homes according to Sthapatya Veda.

Let us be of maximum service to all those who put faith in us that we will build only useful and not harmful buildings for them. Those who contract with us can expect that no aspect of the building will be in any sense harmful to them.

Our policy is to provide maximum facilities for everyone to begin to live and work in 'Ideal Vastu Buildings' as soon as possible. Life will be better, healthier, happier, and in every way satisfactory—life without problems.

In order to make it easy for everyone to live in a Vastu home our plan is to give a wide range of financial choices to everyone. One can either buy or rent these buildings. A purchase can be completed in 1, 2, 3, or 4 instalments during construction of the home; or through financing for 10, 20, or 30 years. From our side, every possible option is being made available so that everyone can make their choice and quickly come to live in a more healthy home.

Our program is to use marble in the exterior and interior of these homes, expressing the sanctity, purity, and dignity of living, while still remaining within reasonable cost.

Our only wish is to see this achieved today, tomorrow, this week, or this month for every city of our dear world.

Our Global Reconstruction Program is based on architecture in harmony with Total Natural Law—the UNIFIED FIELD of all the Laws of Nature from modern science, the Will of God, the Will of the omniscient, omnipresent, almighty God, from all religions.

Good and Bad Effects of the Orientation of Buildings

Direction of entrance is very important

Entrance facing North-West
Negative influence:
 Mental restlessness and instability

Entrance facing North—**Positive influence: prosperity and happiness**

Entrance facing North-East
Negative influence:
 Family life not supported

Entrance facing West
Negative influence:
 Poverty, lack of creativity, chronic diseases

Which direction is your house's entrance facing?

Entrance facing East
Very positive influence:
 Enlightenment, affluence, fulfilment

Entrance facing South-West
Negative influence:
 Quarreling

Entrance facing South—**Very negative influence, problems, and suffering**

Entrance facing South-East
Negative influence:
 Sense of fear and anxiety

All houses should be properly aligned in the north-south, east-west directions, with an auspicious entrance towards the east, the direction of the rising sun.

Please ask your children not to enter the school, if the entrance is in the south or west. Please ask the school principal to arrange the classroom, so that the children face east or north.

The auspicious and inauspicious effects shown in these pages are the predictions from the text books of Sthapatya Veda, Vedic Architecture. Along with these values many other factors, such as the condition of the individual's stars and planets in his horoscope, also have to be considered. So, if one finds that one is not influenced by the predicted results from Sthapatya Veda—even though the building's situation is topsy turvey—then one should understand there are other features working in his favour. Otherwise, this is the standard rule in nature that orientation of the building produces these effects.

Good and Bad Influences of the Slope of the Land

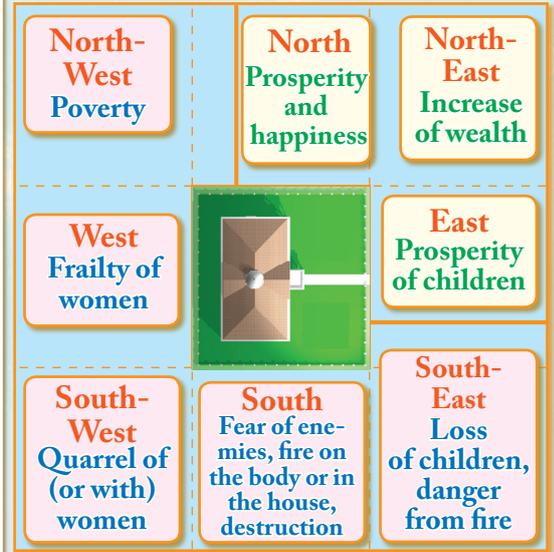

Direction of slope is very important

* Level ground, without slope, is good and brings all-round prosperity and success. A concave shaped site, which is lower in the centre, is most inauspicious and brings great misfortune.

Good and Bad Influences of Water Bodies

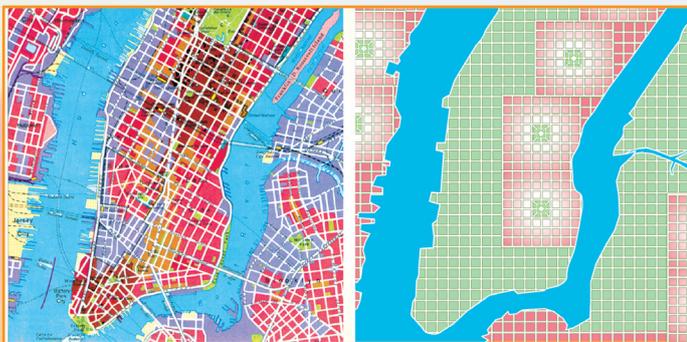

Direction of water bodies is very important

Water bodies on the north, north-east, and east of the house will produce an auspicious influence.

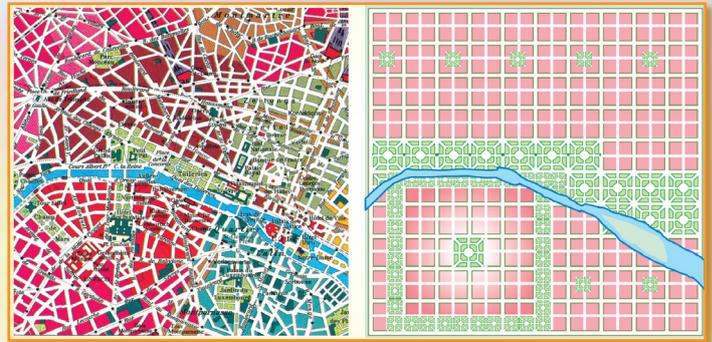

CITY PLANNING ACCORDING TO STHAPATYA VEDA

Reconstruction of NEW YORK in accord with Sthapatya Veda

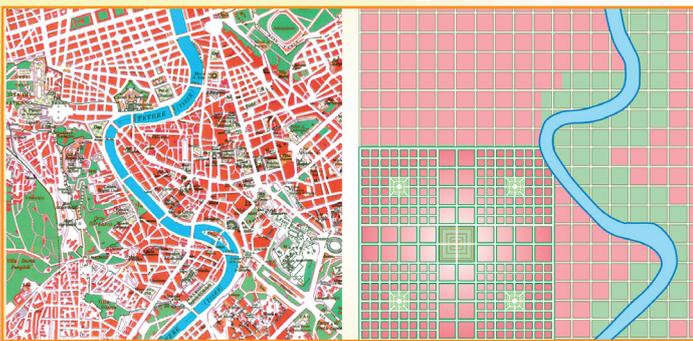

Existing layout of New York New ideal city planning

Reconstruction of PARIS in accord with Sthapatya Veda

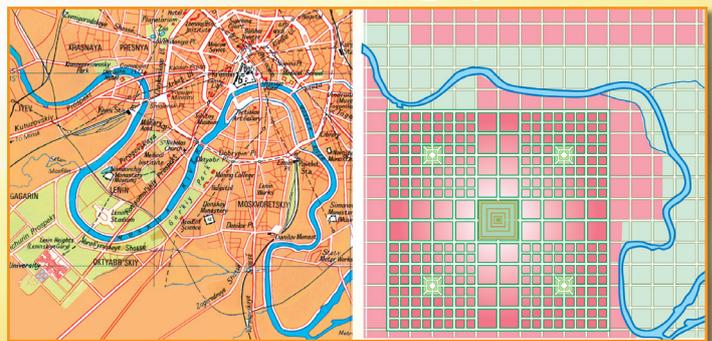

Existing layout of Paris New ideal city planning

Reconstruction of ROME in accord with Sthapatya Veda

Existing layout of Rome New ideal city planning

Reconstruction of MOSCOW in accord with Sthapatya Veda

Existing layout of Moscow New ideal city planning

On the left side of each figure is shown the chaotic city plans of New York, Paris, Rome, and Moscow, with roads in all different wrong directions and buildings on the wrong side of the water bodies creating negative influences for all the inhabitants of these cities. On the right side is

shown the corrected layout of the cities with all roads in the cardinal directions. All buildings are located in auspicious positions with reference to the rivers and water bodies. Gardens fill the inauspicious areas. Rivers can be rerouted, as shown in the case of Moscow.

We have successfully put together modern science and ancient Vedic science and the pursuit of God realisation from all religions—ancient and modern. We feel humble. Our desire is to open a wide gate of peace, prosperity, and happiness to everyone in our dear world. The world reconstruction program is one of our undertakings. Other programs include:

- 1. Education:** To provide full enlightenment and total education to everyone through consciousness-based education in Maharishi Vedic Universities, Colleges, and Schools, so no one makes mistakes or creates problems in his life.
- 2. Health:** To open Maharishi Colleges of Vedic Medicine and hospitals everywhere, to offer prevention-oriented health care programs without side-effects.
- 3. Agriculture:** To open Maharishi Agriculture

Universities with the knowledge of Vedic Organic Agriculture for healthy and nourishing food.

- 4. Management:** To open Maharishi Universities of Management, Politics, Economics, and International Trade—for success in every profession.

All this is possible because we have the knowledge of Total Natural Law from all levels of approach: modern science, ancient Vedic science, and from the holy books of modern and ancient religions.

In support of all these beautiful values in the life of everyone there are more than 600 scientific research studies on Maharishi's Transcendental Meditation® and TM-Sidhi program that have been conducted over the last 35 years at over 250 independent universities and research institutes in 30 countries.

Many of these studies have been published in leading peer-reviewed scientific journals around the world. This research has demonstrated profound benefits in all fields of life—health, education, administration, defence, business and industry, criminal rehabilitation, and crime reduction—to actualise permanent world peace.

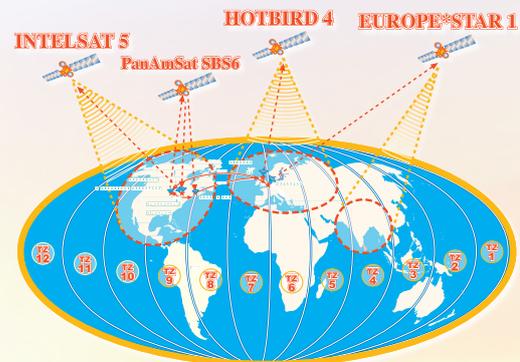

6,000 pages

Scientific research on Transcendental Meditation and its Advanced Techniques, Collected Papers, vols. 1-7

Our aspiration to reconstruct the world and open a new fortune for mankind has its basis in fifty years of educational activity of the Transcendental Meditation Movement, with a global network of communications through satellite broadcasts and internet webcasts.

GLOBAL NETWORK OF INSTANT COMMUNICATION

With all these fields of knowledge at our disposal we feel supported by Total Natural Law, the Will of God.

Lord of the universe, let Thy Will be done on Earth as it is in Heaven

We are starting our activities in all the big cities of the world. Major national and international developers and builders are invited to join hands in this Global Reconstruction Program. Businessmen in any field are invited to do business in this field of construction also, and thus participate in this world peace program.
